☐ YES ☐ NO The property owner, primary contractor, civil or struct	tural engineer, or architect has certified to the
building department those portions of the project that a	are seismic retrofitting components, as defined
by Revenue and Taxation Code section 74.5(b)(2).	
Section 74.5 of the Revenue and Taxation Code excludes from assessment that	portion of an existing structure that consists of the
construction and reconstruction of seismic components.	
In order to receive the exclusion, this claim form must be filed with the assessor price.	
All documents necessary to support the exclusion must be filed with the Assessor becompletion of the project.	by the property owner not later than six months after
	all a stift, to the building department these positions
The property owner, primary contractor, civil or structural engineer, or architect sh of the project that are seismic retrofitting components, as defined by Revenue and	
of the project, the building department shall report to the Assessor the costs of the	
components.	
For purposes of section 74.5	
(1) "Seismic retrofitting components" means seismic retrofitting improvements and	improvements utilizing earthquake hazard mitigation
technologies.	improvements utilizing cartiquake nazaru mitigation
(2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an ex	xisting building or structure, to abate falling hazard
from structural or nonstructural components of any building or structure including	g, but not l <mark>im</mark> ited to, parapets, appendages, cornices
hanging objects, and building cladding that pose serious danger. "Seismic retr	
strengthening or providing the means necessary to resist seismic force levels	
building or structure during an earthquake, so as to significantly reduce hazards to	
safe ingress and egress of building occupants during and immediately after an e not include alterations, such as new plumbing, electrical, or other added finishing	
performed on an existing structure. "Seismic retrofitting" includes, but is not limit	
5 and 6 of the Uniform Code for Building Conservation of the International Confe	
(3) "Improvements utilizing earthquake hazard mitigation technologies" means imp	
government as being hazardous to life in the event of an earthquake. These in	
protection of structures. These improvements shall use technologies such as the	
101) of Title 24 of the California Building Code and similar seismic provisions in	•
THIS EXCLUSION EXPIRES UPON CHANGE IN OWNER	SHIP OF THE PROPERTY.
