Section 74.5 of the Revenue and Taxation Code excludes from assessment that portion of an existing structure that consists of the construction and reconstruction of seismic components.			
In order to receive the exclusion, this claim form must be filed with the assessor prior to, or within 30 days of, completion of the project. All documents necessary to support the exclusion must be filed with the Assessor by the property owner not later than six months after completion of the project.			
The property owner, primary contractor, civil or structural engineer, or architect shall certify to the building department those portions of the project that are seismic retrofitting components, as defined by Revenue and Taxation Code section 74.5(b)(2). Upon completion of the project, the building department shall report to the Assessor the costs of the portions of the project that are seismic retrofitting components.			
For purposes of sect	ion 74.5		
(1) "Seismic retrofitting components" means seismic retrofitting improvements and improvements utilizing earthquake hazard mitigation technologies.			
(2) "Seismic retrofitt from structural o hanging objects strengthening or building or structure safe ingress and not include altera	ing improvements" means retrofitting or reconstruct ronstructural components of any building or struct and building cladding that pose serious danger. providing the means necessary to resist seismic four during an earthquake, so as to significantly reduce egress of building occupants during and immediate ations, such as new plumbing, electrical, or other adexisting structure. "Seismic retrofitting" includes, b	ure including, but not leading in Seismic retrofitting in orce levels that would hazards to life and salely after an earthquaked finishing material	mited to, parapets, appendages, cornices, provements" also means either structural otherwise be experienced by an existing fety while also providing for the substantially e. "Seismic retrofitting improvements" does s, made in addition to seismic-related work

THIS DOCUMENT IS SUBJECT TO PUBLIC INSPECTION

(3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section

THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERTY. **CERTIFICATION** I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing and all information hereon, including any accompanying statements or documents, is true, correct and complete to the best of my knowledge and belief.

5 and 6 of the Uniform Code for Building Conservation of the International Conference of Building Officials.
